1 a) When is Aisha's birthday?

b) On what day of the week does Aisha visit the dentist? What date is this?

a)

I can see the days of the week and numbers on the calendar. This will help me to read the date.

I wonder what time of year it is. How can you tell?

The calendar shows that Aisha's birthday is on a Sunday in the month of November.

It has a number 19 in the square, so the date is Sunday 19 November.

Think together

1 When is Charlie's birthday?

Think about:  
– the month  
– the number  
day in the  
month  
– the day of  
the week.

2

I am going  
horse riding  
on 8 July.

Izzy wants to draw a **X** to show when she is  
going horse riding.

Point to where Izzy should put the **X**.

There is so much you can tell  
from a calendar. It shows us how  
many days are in each month.  
It also tells us when each date is.
