

Telling time to the half hour

1 Match the times to the clocks.

half past 5

half past 8

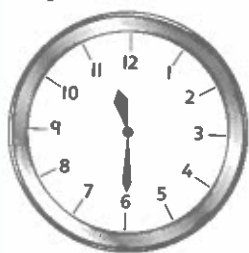

half past 6

half past 7

2 What time is it?

a)

half past

c)

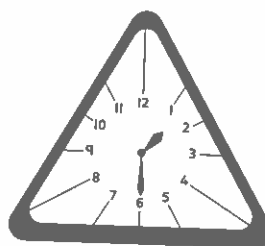

half past

b)

half past

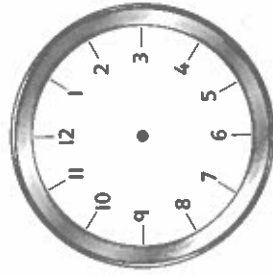

d)

half past

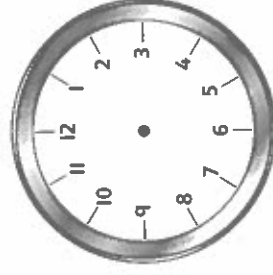

3 Draw the times.

a)

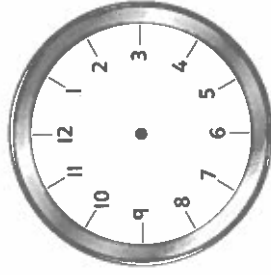

half past 2

b)

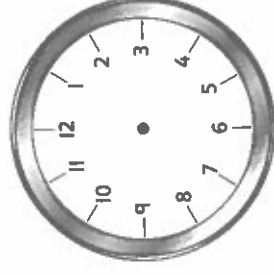

half past 4

c)

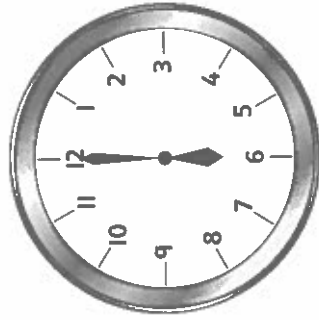

half past 3

d)

half past 9

4 Is Astrid right?

This one is easy.
It is half past 6.

Circle the correct answer.

Yes

No

Explain why.

5

The minute hand is pointing to the 6. The hour hand is pointing in between two numbers that are less than 5.

What time could it be?

I can think of more than one answer.

What do you do at these different times of day?

Reflect

A clock shows half past 7.

Draw what it looks like.
